Welcome you all to “Power & Energy Technology Summit (PowerTech 2020)”

India's **Power & Energy** Sector is one of the largest & most diversified in the world. Sources of power generation range from conventional sources such as **coal, lignite, natural gas, oil, hydro and nuclear power** to viable **non-conventional** sources such as **wind, solar and agricultural/ domestic waste** etc. The power and energy system is experiencing its greatest ever changes and challenges due to the shift from traditional power & energy networks to the smart power/energy grids. Increasing penetration of **renewable energy sources, smart monitoring and control devices** with advanced technologies are some key characteristics of these new developments. The theme of **PowerTech 2020** will showcase the **latest trends, research & developments, innovations, technological solutions, troubleshooting, operation & maintenance** etc. in the various fields of Power and Energy Engineering. The two-day gathering will offer an opportunity for engineers, scientists, professionals, policymakers, investors, and other parties to review recent developments in the energy systems and technologies. The key objective is to continuously optimize the operations with new technologies & developments with an aim to enhance availability, output, and efficiency of the power plant along with power plant life.

Technical Topics & Sessions

- Session 1: Power & Energy Industry - Recent Trends & Developments, Focus on Renewal Energy Market
- Session 2: Solar Energy - Upcoming Business Opportunities in Solar PV Niche, Markets of India - Self PV, Floating Solar and O&M
- Session 3: Wind Energy - Market Growth & Scope, New Technologies, Mega Wind Mills & Turbine Blades, Predict the Unpredictable - Power Forecasting
- Session 4: Conventional Thermal & Hydro Energy: Integration, Challenges, Solutions & Transactive Energy Market Proposition
- Session 5: Nuclear Energy - Future of Indian Nuclear power, Growth & Capacity Expansion, International comparison & Opportunities, Technology Transfer, Safety Issues
- Session 6: Energy Storage - Battery Technology, techniques & Economics
- Session 7: Grid integration & Ancillary Services - Indian Scenarios
